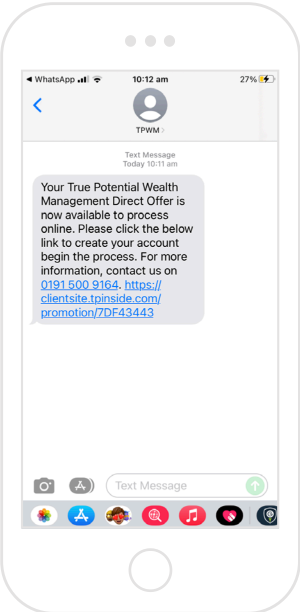
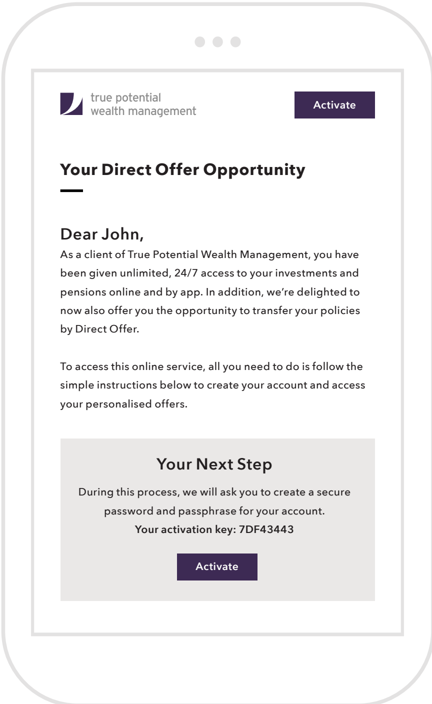
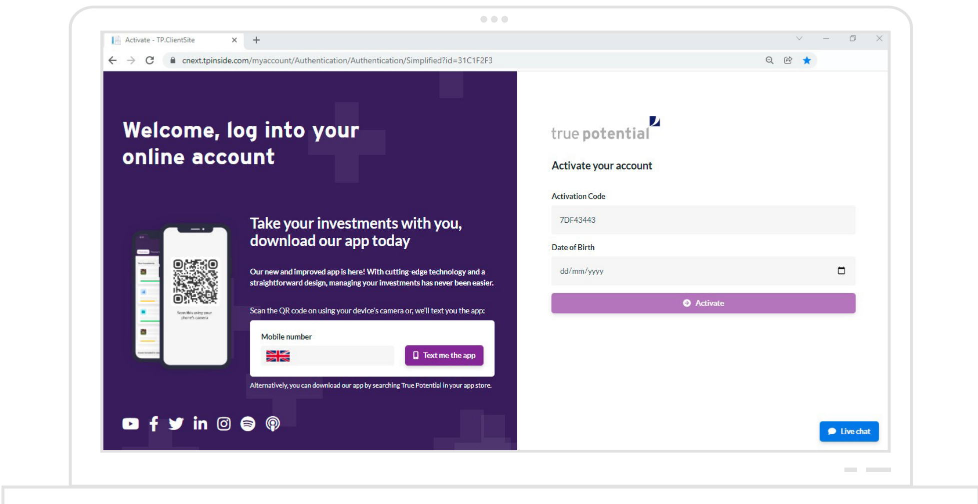
Creating your account.

Firstly, you will receive a text message and/or email from your Financial Adviser, as shown below.



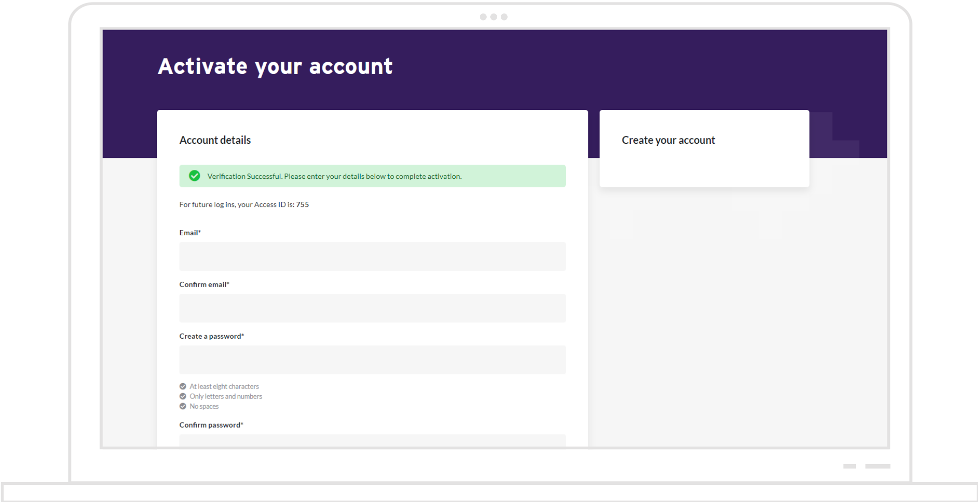


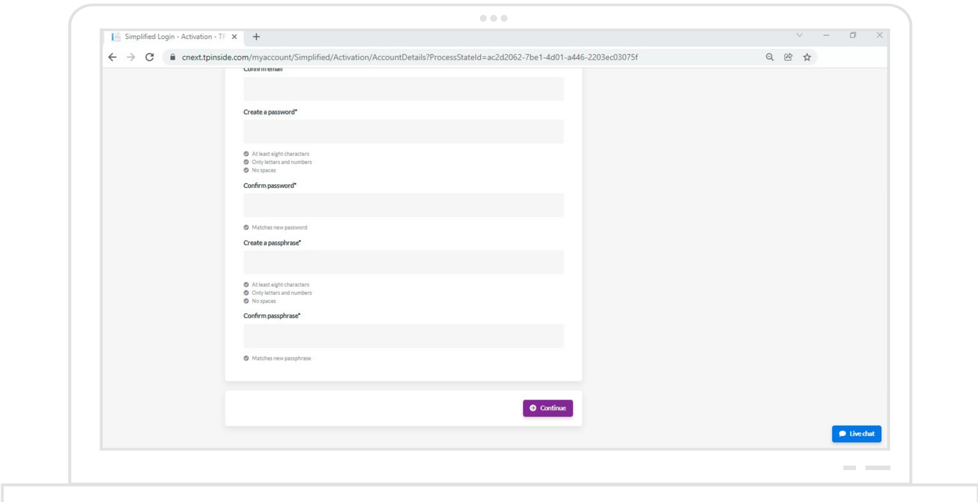
Follow the steps in the communications you have received to create your account. (If you don't have an account, you will be asked to activate your account, where you will be asked for your date of birth and post code).



Creating your account continued.

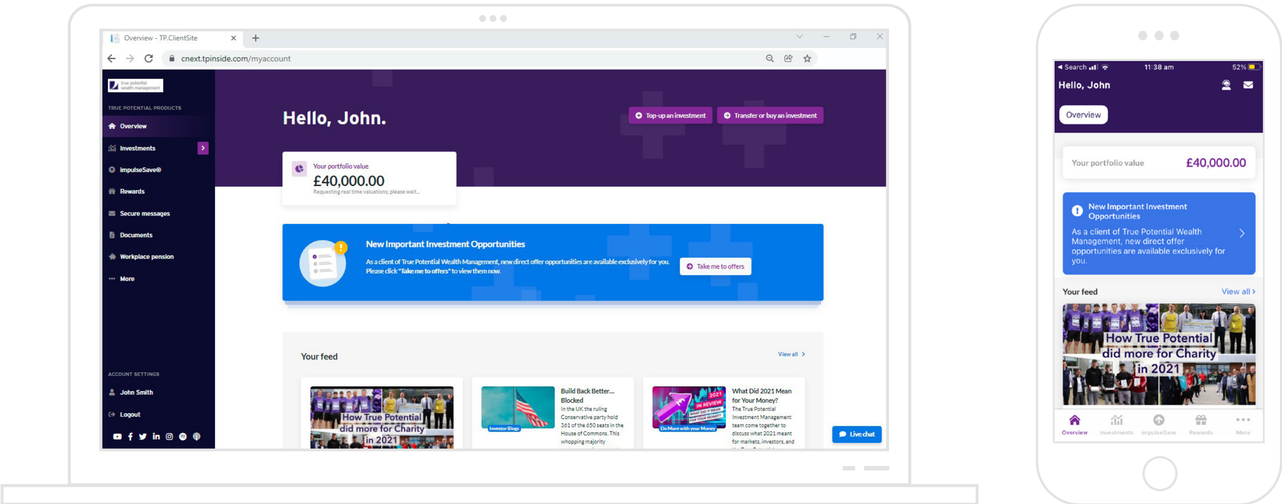
Once you have entered these details, you will be asked to create your own password and passphrase.





Step 1 - Log in.

Once you've logged in to your personalised client site, you will have the option to be taken to your offers.



This will display the policies that are on offer to you to transfer – you may have more than one.
